**outdoor**  
26 different sticker combinations in  
the main streets of Tehran / IRAN.  
Stickers may be removed or peeled  
off by others but we are glad  
that we accomplished our mission  
of urban communication.  
The most important aim of  
this project is to promote  
sticker art as a creative way of  
independent art productions to be used,  
to be sold and to be produced independently
